COLORADO SPRINGS GAZETTE, JANUARY 12, 1878.

THE COLORADO SPRINGS GAZETTE
A D E TWO OUT.

JANUARY 12, 1878.

Official Paper of the City of Co-
lorado Springs.

It is stated that Patterson will resign on the
pleas of ill health.

S. A. Gilpin, Chief Clerk of the Indian
Bureau, has been dismissed.

SOUTHERN Republicans are unanimous in
supporting the President's Southern Policy.

Montgomery Blair memorializes Congress,
calling for a judicial decision as to who is
responsible.

The exports of silver from San Francisco to
India, China, and the Straits, is given approxi-
mately at \$10,000,000.

Gen. Banning has introduced a new Army
Bill, the passage of which, he claims, will save
over \$6,000,000 annually.

DISPATCHES of the 7th, from New England,
New York, and Richmond, Virginia, tell of
extremely cold weather.

The King of Italy died at 2:30 this afternoon
of the 7th. He received the consolations of
religion before his death.

There is danger of an insurrection of native
chiefs in Cape Colony, Africa. England is
preparing to meet any such emergency.

The Council of Ministers have agreed upon
the conditions of an Armistice, and have submitted
them to the Sultan's approval. In
opening negotiations purely for a Military
Armistice, the Porte is said to be acting upon
Lord Derby's advice.

Stanley, the African Explorer, has been cor-
dially received by the Khedive, and has been
presented by him with the decoration of Grand
Officer of the Medjidie, as a mark of apprecia-
tion of his services. The Geographical Society
of Paris, gave a sumptuous banquet in his
honor.

Washington dispatches of the 8th, state that
there has been a revolt of the garrison at Sandy
Point, Straits of Magellan. The mutineers
burnt and destroyed all public property, carry-
ing off the public prints, destroying much pri-
vate property, killing a large number of per-
sons. They also made an attempt to capture
the steamer Memphis.

LATE dispatches from Rome, state that King
Victor Emanuel is seriously ill. Dispatches of
the same date, from London, bring rumors of
the intended resignation of the Earl of Carnar-
von, Secretary of State for the Colonies, and
also state that Lord Beaconsfield is the only
member of the Government who favors British
intervention in the Eastern Conflict.

The London *Times* says, "Money is in less
demand for any purpose, and bills have been
very scarce. The extreme uncertainty regard-
ing the future course of political affairs causes
a great stagnation than ever in all branches of
business. In the afternoon (Wednesday) sur-
plus balances could not be lent at any price
at all."

The following is stated to be the text of
England's note to Russia: "Her Majesty's
Government begs to inform the Emperor that
the Porte is ready to open peace negotiations.
The Emperor's wish is repeatedly ex-
pressed love of peace, justify her Majesty's
Government in the hope that he will lend a
favorable ear to the Sultan's request."

The explosion of Greenfield's Candy factory,
New York, is said to have been caused by the
presence of Teria Alba, Glycerine and Nitric
Acid. These three ingredients mixed, forming
Dynamite. They were in the factory to be
used in the manufacture of candy. Is there no
way to prevent this sale of poison? Particular
by when we know who are the great candy
consumers among us?"

WILL it not be a wise precaution for the
proper authorities to inspect the ash pits per-
mitted in the town to see that nothing but
ashes are deposited therein? It should be in-
structed that all refuse from the kitchens be
emptied into a proper receptacle provided for
that purpose, the contents of which should be
emptied beyond the city limits at least twice a
week, otherwise these so called ash pits may
become the fertile breeders of disease. When
the present cold weather shall have passed
away, and the sun comes out in all force,
should there not also be a thorough inspection
of all back premises to ascertain if there is any
caveat emptying of ashes? Carelessness in
this matter is too dangerous to be risked, our
city is not built of asbestos.

WHAT does Colorado intend to send to the
Paris Exposition? California and Nevada are
preparing to make a good exhibit. We, with
all our rich products, over great beds of mineral,
should, if we do anything, do something worth-
while in our great resources. There is not much
time left to decide in this matter. If active
steps have not already been taken in this direc-
tion, no time should be lost. We are not, as a
rule, slow or small in our undertakings, quite
the other way. This instance should not be
the exception. Colorado is rapidly increasing
in wealth and population, more rapidly than
other Western States. We took a prize for
ours in the Paris Exposition of long ago, and
we are in a much better condition to day to
show to the world the immense riches locked
up in our mountains.

ADVICE from all parts of the country East
and West tells of more encouraging business
prospects than for several years previous. The
hard times seem to be fairly over, the new
year promises to be a good year. We have
felt the necessity of economy, and it is to be
hoped we have learned the folly and sin of extrava-
gance. The premium on gold has almost dis-
appeared, we seem to be fairly and naturally
on the way to restoration; prices are coming
to a specie level. The fear lest Congress
will oblige us to take ninety two cents for a
dollar is disturbing public confidence mon-
umentally; let us hope that the spirit of the
President's message will rule, and that in this
moment of awakening prosperity we shall not
be made to suffer from the effects of national
dissension. Our grain crop and exportation
is unusually large. Three million two hundred
thousand bushels of wheat was shipped to
Europe from the Atlantic ports alone, during
the months of September, October, and November.
There is a large supply in the West to come from, nine million bushels were re-
ceived in Chicago in the above mentioned
months. Colorado Springs, may be said to be
the mountain as to have no effect in our town,
but it will affect us all by the ranches and
grazing grounds ten, twenty, and if very
extensive, fifty miles about us. The signs dis-
play here are very temporary in
town, we repeat at places damaged by
our soldiers for the benefit of those around
the sight of the conflict, and we expect
to hasten to the protection of their flock.

Another nitro-glycerine explosion at
Mieschi, on the 7th. Seven men were killed,
several injured, and many buildings damaged.
The can contained; the nitro-glycerine was
blown up.

WE find among our exchanges two most in-
teresting letters from Gunnison; lack of space
forbids our giving them to our readers in full,
but we would call attention to some of the
facts contained in them. This whole valley is
well adapted to the growth of the natural
grasses, of which there are about forty different
varieties. About 8,000 tons of hay have been
put in stack this season. All the land now
occupied for this purpose, were properly man-
aged, it would yield about 50,000 tons, which
would pay well for beef and dairy purposes.
The beef and butter of this section is excellent,
and finds a ready market in San Juan. The
coal trade has also proved remunerative. There
has been great activity in the silver mines with
most favorable results. Reduction works are
to be put up this coming summer, the machin-
ery for which is already at Garland, the present
situation of the D. & R. G.

BRIGHTLY as 1878 opens for America, daily
the war cloud seems to darken over Europe,
daily the danger of a universal war becomes
more imminent, and telegrams from Lon-
don speak as if all thoughts of peace had dis-
appeared, and tell of threatened disruption of
Parliament. A demand is to be made upon Russia
for definition of her intentions; if she refuses to
make plain these intentions, war will be de-
clared. France stands ready to take up her
old quarrel with Germany. Although the prob-
able immediate effect of such a war would be to
stimulate all American industry, sending a
great deal of money to us, still it would be
greatly to be deplored, a great war is a uni-
versal calamity. We as a people are inti-
mately connected with Europe, particularly
with England, our mother country, and how
ever much it might for the moment advantage
us financially, we should with pain see such a
large part of the world enduring the scourge of
war.

Since writing the above, prospects for peace
seem more encouraging; vague rumors of an
approaching armistice are current in Vienna
and Paris. Russia seems to have opened the
way for peace negotiations, if Turkey will make
the advances Russia suggests; Turkey wishes
to have a clear understanding of Russia's de-
mands. It is believed that the English govern-
ment has suggested to the Porte the desirability
of complying with Russia's request for direct
communication between the commanders of
the forces.

TO THE SEEP MEN OF
PASO COUNTY.

The undersigned, believing that a public exhibition of the different kinds and varieties of sheep owned in El Paso County would be attended with beneficial result to those who are engaged in the wool growing business, respectfully invite the sheep men of El Paso County to meet them at Colorado Springs, on the 28th day of January, 1878, at two o'clock, P.M., for the purpose of consulting and determining if a sheep shearing exhibition would meet their approbation and patronage, and if approved to determine the time and place of exhibition, and the premiums to be awarded to king and country, as we are to appoint the necessary judges, and take such other preliminary action as may be deemed necessary to make the object a success.

BUSINESS TEWS.

A MYSTERIOUS MAN IN TOWN.

Prof. Chas. E. Read, the greatest living Spiritual exposé, will hold forth at City Hall, this Saturday, and Monday evening. He comes well recommended by the whole Denver press, as having had large audiences at the First Baptist Church in that City. He is the identical man who exposed the Katie King Mystery, at Philadelphia. Admission only 50 cents, go and see him.

ATTENTION!

The column is reserved for notices at the small sum of five cents a line.

Where are you Catholics? The General sold a whole pound of fish, ye sinners!

CASH DOES IT!

The reason why we are selling Boots and Shoes so wonderfully cheap is because we sell for cash and know just what we make, we could not do it if we did not get the money down.

There are plenty of Boots and Shoes still being made, so that we have no trouble to replenish our stock, and prefer sure pay, low bonus, an quick sales, to a slow business, and large margins. SAVAGE & FLORANCE
